

SAAR Water Solution for Domestic to Commercial

SAAR E.A. LIMITED

www.saar-air.com

Empowered with our engineering expertise and technological achievements, we are a well-established Manufacturer and Exporter of a wide range of Water Filtration & Treatment Plants for Industrial, Commercial and Domestic purposes.

Industrial

Commercial

Domestic

The Company

Our value based business policies and vision to make the world a healthy and a happy place, we sustained and evolved. Constant innovation in products and digging deep in research to improve alternatives in technology gave us an opportunity to lead quality standards in market. It helped us to bring our Product range to a premium level.

We started addressing the need of Industrial water purification systems later in year of 2005. We initiated in developing Water Chillers, Water Coolers, Water Dispensers and Water Softeners for Clinical and Industrial use.

Achievements in Kenya

5000LPH

Water Treatment Plant

Purpose: To remove Fluoride and Iron from Borehole water

Location: Star Apartment, Kushi Lane, 3rd Parklands

500 LPH

Water Softening Plant

Purpose: To remove hardness from Borehole water

Location (Total: 4) : 3 at Lower Kebeta, One at Raphta Road

500 LPH

UV Light Water Treatment

Purpose: To remove bacteria from Domestic water coming from overhead tank

Location: 3 at Lower Kebeta

2000LPH

Industrial RO Plant

Purpose: Drinking Water Bottling

Location: Likoni Road,

Achievement: Reduced TDS from 350 to 55 and maintained 8 PH KEBS certificate acquired.

500LPH

Industrial RO Plant

Purpose: For Drinking Water for staff

Location: SIL Africa Limited

Achievement: Reducing TDS from 550 to 55

75 LPH

Commercial RO System

Total Installations in Kenya: 9

Special Installation in a farm at Makindu with Solar Power

35 LPH Commercial Plant

Total Installations in Kenya: 4

For offices and warehouses to provide drinking water to staff and workers

Domestic Water Purifiers

Total Installations: 283

At Parklands, Nairobi West, South C, Langata, Eldoret & Mombasa Town

Commercial & Domestic Application

Domestic Applications

For City Council Water

**Non Electrical
UF Purifier**
A1

**UV + UF
Water Purifier**
A2

For Borehole Water

**Water Purifier
RO System**
A3

**Water Purifier
RO System Plus**
A4

Domestic – Under-sink RO
(Borehole Water)

**Open Flow RO
with Pressure Tank &
Tap**
A5

**Open Flow RO
(No Tank or Tap)**
A6

Undersink Tripple Filter
(City Council Water)

**Triple Bowl Filter
with UV with Tap
(Static Pressure)**
A7

**Triple Bowl Filter with UV,
Mineral Cartridge
with Pressure Tank & Tap**
A8

Commercial Applications

35 Ltrs Per Hour RO System
A9

70 Ltrs Per Hour RO System
A10

Industrial Application

250 LPH RO System
A11

500 LPH RO System
A12

1000 - 6000 LPH RO System
A13

Water Treatment Plant

Water Softeners

- Water Softener for Household
- Water Softener Industrial

Water Treatment

- Fluoride Content Remover
- Iron / Manganese Remover

Water Disinfection

- UV Light Treatment
- Ozonater

Drinking Water Bottling Plant

- Fully Automatic or Semi Automatic
- For Small Bottle & Big Bottles

We supply all types of Spares required to maintain above systems

We provide Installation and Repair Services

We accept Service Contracts and provide timely support for all types of Systems.
